AppleTree CEU
14053 Memorial Dr #144,
Houston, TX 77079

JEFFREY DESPOMMIER
OTR, OMS, CUA, ATP
FOUNDER / PRINCIPAL INSTRUCTOR

Upon successful completion of this course, attendees will learn how to evaluate and treat clients with neurogenic bowel. The course will start by providing an overview of the anatomy and physiology as it relates to the digestive system. This will provide a foundation for understanding why and how to treat clients with fecal incontinence using a client-centered approach. Attendees will learn evidenced based treatment interventions for upper motor neuron and lower motor neuron injuries and strategies for effective bowel programs.

Objectives

- Identify the key structures and role of the digestive system.
- Identify key differences between upper and lower motor neuron injuries as it relates to neurogenic bowel.
- Summarize steps to complete bowel program for both upper motor and lower motor neuron injuries.
- Identify 2 adaptive tools or assistive technology to increase independence with bowel program.
